

WE NEED YOUR HELP

Our Students. Our Future.

Dear Community,

On behalf of the Education Foundation of Niagara, I hope this finds you safe and well during these tumultuous times. The economic disruption arising during COVID-19 has impacted our foundation and the children we serve.

We understand the challenges presented by this rapidly-evolving situation, and we continue to support our District School Board of Niagara educators who have expressed the urgency to support students in need with basic necessities and nutritional support.

Stories like, Kathy, a single mother of two daughters Anna and Michelle, who has recently been laid off and is struggling to provide basic necessities for her family.

Andrew, a recent widow after the death of his wife who is raising four young children. Andrew is unable to make ends meet. His story of loss and devastation is just one of the dozens of stories that we have seen unfold since the mandatory school closures. The reality is that many of our children and their families are living with uncertainty just like Kathy and Andrew.

As we navigate through these difficult times we are asking for your help to support those who need it the most.

Every child deserves a champion.

Please consider making an emergency relief donation to the Education Foundation of Niagara today.
